

## Bideford College HISTORY Faculty: Key Stage 2 – 4 Progress Matrix

	In order to get a <u>grade 1</u> at GCSE you must be able to	In order to get a <u>grade 2</u> at GCSE you must be able to	In order to get a <u>grade 3</u> at GCSE you must be able to	In order to get a <u>grade 4</u> at GCSE you must be able to	In order to get a <u>grade 5</u> at GCSE you must be able to	In order to get a <u>grade 6</u> at GCSE you must be able to	In order to get a <u>grade 7</u> at GCSE you must be able to	In order to get a <u>grade 8</u> at GCSE you must be able to	In order to get a <u>grade 9</u> at GCSE you must be able to
<b><u>Literacy – AO1 +AO2</u></b>	H1.1: write a limited amount so it relates to the question.	H2.1: spell, use grammar and punctuate with some accuracy and control of meaning.	H3.1: spell, use grammar and punctuate with reasonable accuracy and control of meaning.	H4.1: spell, use grammar and punctuate with accuracy and control of meaning.	H5.1: structure responses into PEEL paragraphs.	H6.1: produce well written, PEEL paragraphs without spelling or grammar errors.	H7.1: produce well written, PEEL paragraphs without spelling or grammar errors.	H8.1: consistently produce well written, PEEL paragraphs without spelling or grammar errors.	H9.1: consistently produce well written, PEEL paragraphs, using specialist terms.
<b><u>Recall AO1</u></b>	H1.2: use limited knowledge and understanding of the topic is shown.	H2.2: use limited knowledge and understanding of the topic.	H3.2: show some knowledge and understanding of the topic.	H4.2: recall some accurate and relevant information.	H5.2: recall accurate and relevant information with some knowledge of features.	H6.2: recall accurate and relevant information with knowledge of features.	H7.2: recall accurate and relevant information with good knowledge of features.	H8.2: recall accurate and relevant information with precise knowledge of features.	H9.2: recall accurate and relevant information with excellent knowledge of features.
<b><u>Description AO1–</u></b>	H1.3: describe a valid 'feature'.	H2.3: describe two valid 'features'.	H3.3: describe 2-3 valid 'features'.	H4.3: describe 2 valid 'features' supported with accurate and relevant details.	H5.3: describe 2-3 valid 'features' supported with accurate and relevant details.	H6.3: describe 3 valid 'features' supported with accurate and relevant details.	H7.3: describe 3-4 valid 'features' supported with accurate and relevant details.	H8.3: describe 4 valid 'features' supported with accurate and relevant details.	H9.3: describe 4 valid 'features' supported with accurate and relevant details.
<b><u>Context A02 + A04</u></b>	H1.4: show understanding of the historical context, but anachronisms displayed.	H2.4: show basic understanding of context of event / provenance of the source.	H3.4: show basic understanding of context of event / provenance of the source.	H4.4: show some understanding of the context of event / provenance of the source.	H5.4: show understanding of the context of event / provenance of the source.	H6.4: show understanding of the context of event / provenance of the source.	H7.4: show understanding of the context & well supported effects on the provenance of the source.	H8.4: show understanding of the context and how this drives analysis of the provenance of the source.	H9.4: show understanding of the context and analysis of provenance to help future research.
	H1.5 provide a limited description.	H2.5: use limited explanation.	H3.5: provide a basic explanation.	H4.5: use some explanation directly linked to	H5.5: use explicit explanation in depth to	H6.5: use explicit explanation in depth to	H7.5: use in depth and explicit explanation	H8.5: produce an in depth explanation which strongly	H9.5: produce an in depth explanation which focuses

				the argument or question.	support an argument.	support an argument.	which is adequate to support argument.	supports your argument.	on a strongly supported argument.
<b><u>Inference AO3</u></b>	H1.6: simply describe information given.	H2.6: describe in detail.	H3.6: make an implicit inference without supporting evidence.	H4.6: make some inference using supporting evidence.	H5.6: make an explicit inference with some supporting evidence.	H6.6: make an explicit inference explained using supporting evidence.	H7.6: make an explicit inference explained using supporting evidence.	H8.6: make an explicit inference explained using supporting evidence.	H9.6 make an explicit inference explained with directly supporting evidence.
<b><u>NOPAM analysis AO3</u></b>	H1.7: describe the source material taken at face value.	H2.7: describe source material, message is understood.	H3.7: show implicit understanding of message and one criterion of NOP.	H4.7: understand the message and one criterion of NOP.	H5.7: understand the message and two criteria of NOP.	H6.7: understand the message and three criteria of NOP.	H7.7: analyse message and NOP criteria supported by own knowledge and context.	H8.7: analyse message and NOP criteria supported by own knowledge + context.	H9.7: analyse message and NOP criteria supported by own knowledge and context.
<b><u>Similarity and difference AO2 + AO4</u></b>	H1.8: only identify material given.	H2.8: show some understanding of similarities and differences.	H3.8: identify similarities and differences.	H4.8: identify some similarities and differences.	H5.8: identify similarities and differences.	H6.8: identify differences explicitly with reference to own argument.	H7.8: identify differences explicitly with explanation of own argument.	H8.8: identify differences with clear interpretation and analysis.	H9.8: identify differences explicitly with in depth interpretation and analysis.
<b><u>Importance AO4</u></b>	H1.9: give an answer that treats all the causes/evidence the same.	H2.9: have some understanding of the importance of factors.	H3.9: show some understanding of the importance of factors.	H4.9: show some understanding of the importance of factors.	H5.9: implicitly use the importance of factors to support judgements made.	H6.9: explicitly use the importance of factors to support judgements made.	H7.9: explicitly explain the importance of factors to support judgements made.	H8.9: explicitly explain the importance of factors to directly support judgements made.	H9.9: explicitly explain the importance of factors to specifically support judgements made.
<b><u>How far do you agree? AO4</u></b>	H1.10: provide opinions given to you and take them at face value,	H2.10: put forward one's own opinion.	H3.10: show an overall judgement without justification.	H4.10: make an overall judgement with limited justification.	H5.10: make an overall judgement with some justification and knowledge.	H6.10: make an overall judgement using justification and knowledge.	H7.10: use valid and explicit criteria to make a judgement.	H8.10: use valid and explicit criteria to make a judgement which is supported by own knowledge.	H9.10 use valid and explicit criteria to make a judgement which is supported by own knowledge.
