

Risk Assessment for Covid Testing Station

Why is this document needed: Public Health England and the Health and Safety Executive require this documentation to ensure end to end health, safety and infection control risks for mass lateral flow testing are identified, pre-assessed, managed and monitored regularly by the site owners and testing operators

| | | | | | | | |
|---|---|---------------|------------------|---------------|-----|-------------------|-----|
| Assessment Date | 05/01/2021 | Lead Assessor | Darren Crockford | Contract | N/A | Assessment Number | N/A |
| Activity / Task | | | | | | | |
| Description of task / process / environment being assessed | General and clinical activities on the asymptomatic testing site for Launceston College MAT | | | | | | |
| Activities Involved | Traversing the site on foot Testing Trust staff and students | | | | | Location | |
| Who Might be affected | Staff ✓ | | | Students ✓ | | | |

| Hazard Identification and evaluation | | | | | | | |
|--------------------------------------|---|--|---|---------------------------------|----------|------|---|
| No | Hazards | Associated risks | Current Control/ Mitigation Measures | Risk Evaluation (post measures) | | | Additional control needed? Action No |
| | | | | Probability | Severity | Risk | |
| 1 | Contact between subjects increasing the risk of transmission of COVID19 | Transmission of the virus leading to ill health or potential death | <ul style="list-style-type: none"> • Asymptomatic: All subjects are to be advised in advance not to attend if they have any symptoms of COVID 19, or live with someone who is showing symptoms of COVID 19 (including a fever and/or new persistent cough) or if they have returned within 14 days from a part of the world affected by the virus or have been in close contact with someone who is displaying symptoms. • Face masks: Prominent signage reminding attending subjects of the above to be displayed at the entrance to the building. • Face coverings/masks to be worn by subjects at all times whilst on the premises except for brief lowering at time of swabbing. . • Compliance with wearing of face covering/mask of all subjects to be visually checked through building by queue managers and all other staff. • Hand hygiene: All subjects to use hand sanitiser provided on arrival & adherence to this enforced by reception staff. • Social distancing: Two metre social distancing to be maintained between subjects with measured floor markings in place to ensure compliance in addition to verbal reminders if necessary from reception, queue management & sampling staff. • A one-way flow of subjects through the building is to be initiated and maintained at all times. Compliance with this is to be ensured by queue management staff. • • Cleaning: Regular cleaning of the site including wipe down of all potential touchpoints in accordance with PHE guidance. • Limited clutter-chairs only on request; no physical handing of documents to subjects except barcodes and PCR test kits for first 200 subjects | 1 | 4 | 4 | No |

| | | | | | | | |
|---|---|--|--|---|---|---|----|
| 2 | Contact between subjects and staff increasing the risk of transmission of COVID19 during welcome and registration | Transmission of the virus leading to ill health or potential death | <ul style="list-style-type: none"> • Social distancing: Two metre social distancing to be maintained between subjects with measured floor markings in place to ensure compliance in addition to verbal reminders if necessary from reception, queue management & sampling staff. • Face masks: All persons will wear face coverings at all times. • PPE: Appropriate PPE will be worn. | 1 | 4 | 4 | No |
| 3 | Contact between subject and sampler increasing the transmission of COVID19 during sample taking | Transmission of the virus leading to ill health or potential death | <ul style="list-style-type: none"> • Social distancing: Two metre social distancing to be maintained between subjects with measured floor markings in place to ensure compliance in addition to verbal reminders if necessary from reception, queue management & sampling staff. • Face masks: All persons will wear face coverings at all times. Testing staff will wear appropriate PPE, including full face shields. • Cleaning: Regular cleaning of the site including wipe down of all potential touchpoints in accordance with PHE guidance. | 1 | 4 | 4 | No |
| 4 | Contact between sample and test centre runner increasing the transmission of COVID19 during sample transport | Transmission of the virus leading to ill health or potential death | <ul style="list-style-type: none"> • Social distancing: Two metre social distancing to be maintained, with verbal reminders if necessary from reception, queue management & sampling staff. • Face masks: All persons will wear face coverings at all times. Testing staff will wear appropriate PPE, including full face shields. | 1 | 4 | 4 | No |
| 5 | Contact between samples and sample testers increasing the transmission of COVID19 during sample processing and analysis | Transmission of the virus leading to ill health or potential death | <ul style="list-style-type: none"> • Social distancing: Two metre social distancing to be maintained, with verbal reminders if necessary from reception, queue management & sampling staff. • Face masks: All persons will wear face coverings at all times. Testing staff will wear appropriate PPE, including full face shields. • Cleaning: Regular cleaning of the site including wipe down of all potential touchpoints in accordance with PHE guidance. | 1 | 4 | 4 | No |

| | | | | | | | |
|---|---|---|---|---|---|---|----|
| 6 | Contact between samples and sample testers increasing the transmission of COVID19 during sample disposal and waste disposal | Transmission of the virus leading to ill health or potential death | <ul style="list-style-type: none"> • Social distancing: Two metre social distancing to be maintained, with verbal reminders if necessary from reception, queue management & sampling staff. • Face masks: All persons will wear face coverings at all times. Testing staff will wear appropriate PPE, including full face shields. <ul style="list-style-type: none"> • Cleaning: Regular cleaning of the site including wipe down of all potential touchpoints in accordance with PHE guidance. • Disposal: All samples and waste will be disposed of in accordance with PHE guidance. | 1 | 4 | 4 | No |
| 7 | Incorrect result communication | Wrong samples or miscoding of results | <ul style="list-style-type: none"> • 2 identical barcodes are provided to subject at check in • The subject registers their details to a unique ID barcode before conducting the test • Barcodes are attached by trained staff at the sample collection bay Barcodes are checked for congruence at the analysis station 1 and applied to Lateral Flow Device at this station | 2 | 2 | 4 | No |
| 8 | Damaged barcode, lost LFD, failed scan of barcode | Orphaned record on registration portal & No result communicated to individual | <ul style="list-style-type: none"> • Rule based recall of subjects who have not received a result within x hrs of registration • Subjects are called for a retest | 2 | 2 | 4 | No |
| 9 | Extraction solution which comes with the lab test kit contains the following components: Na_2HPO_4 (disodium hydrogen phosphate), NaH_2PO_4 (sodium phosphate monobasic), NaCl (Sodium Chloride) | These components do not have any hazard labels associated with them, and the manufacturer states that there are no hazards anticipated under conditions of use as described in other product literature. This is the case for exposure to: eye, skin, inhalation, ingestion, chronic toxicity, reproductive and developmental toxicity, carcinogenicity, and medical conditions aggravated by exposure. | <ul style="list-style-type: none"> • PPE: nitrile gloves which meet the Regulation (EU) 2016/425 to be used at all times when handling the extraction solution. Safety glasses with side shields which are tested and approved under appropriate government standards to be worn at all times when handling the extraction solution. Impervious clothing to be worn to protect the body from splashes or spillages. • Environmental: do not let product enter drains • Spillages: wipe surfaces which the solution has been spilt on and dispose of cleaning material in line with the lab's waste disposal procedures • Do not use if the solution has expired • Training to be provided in handling potentially biohazardous samples, chemicals and good lab practice. Adhere to guidelines in these training procedures to prevent improper handling. • Follow procedures on the MSDS form provided by Innova to mitigate against inhalation, skin contact or ingestion of these chemicals. | 2 | 2 | 4 | No |

| | | | | | | | |
|----|---|---|---|---|---|---|----|
| 10 | Manual handling | Transportation of supplies to storage areas. | <ul style="list-style-type: none"> • Appropriate manual handling observed. | 2 | 2 | 4 | No |
| 11 | Uneven surfaces (floor protection in the Testing and Welfare areas) | Slips, trips and falls. | <ul style="list-style-type: none"> • Checked and monitored by Team Leader at appropriate intervals. | 1 | 2 | 2 | No |
| 12 | Stairs to / from sample processing / registration area and welfare space | | N/A | | | | No |
| 13 | Inclement weather | Slips, trips and falls. | <ul style="list-style-type: none"> • Appropriate monitoring and cleaning. | 2 | 2 | 4 | No |
| 14 | Electrical safety / plant & equipment maintenance Defective electrical equipment | Electrical shock/physical injury | <ul style="list-style-type: none"> • Electrical equipment PAT tested and monitored. | 2 | 2 | 4 | No |
| 15 | Use of shared equipment | Risk of transferal | <ul style="list-style-type: none"> • Appropriate cleaning schedule in place. | 2 | 2 | 4 | No |
| 16 | Incorrect result communication | Wrong samples or miscoding of results | <ul style="list-style-type: none"> • 2 identical barcodes are provided to subject at check in • The subject registers their details to a unique ID barcode before conducting the test • Barcodes are attached by trained staff at the sample collection bay Barcodes are checked for congruence at the analysis station 1 and applied to Lateral Flow Device at this station | 2 | 1 | 2 | No |
| 17 | Damaged barcode, lost LFD, failed scan of barcode | Orphaned record on registration portal & No result communicated to individual | <ul style="list-style-type: none"> • Rule based recall of subjects who have not received a result within x hrs of registration • Subjects are called for a retest | 2 | 1 | 2 | No |

| Control Improvements | | | | |
|-----------------------------|---|-------------------|-------------|----------------|
| Action No | Recommended additional control measures | Responsibility | Target Date | Date completed |
| 1 | Content of the risk assessment to be communicated with all workers as part of induction | Covid Coordinator | | |
| 2 | Toolbox talks to be delivered to all workers on a regular basis including slips trips falls and complacency | Covid Coordinator | | |
| | | | | |
| | | | | |
| | | | | |

| Additional Notes |
|-------------------------|
| |

Risk Evaluation

| | | Consequence of event occur | | |
|--|----------------|----------------------------|-------------------|-------------------|
| | | Negligible | Minor | Moderate |
| Likelihood of event occurring (Probability) | Almost Certain | Tolerable 5 | Substantial 10 | Intolerable 15 |
| | Likely | Tolerable 4 | Substantial 8 | Intolerable 12 |
| | Possible | Trivial 3 | Tolerable 6 | Substantial 9 |
| | Unlikely | Trivial 2 | Tolerable 4 | Tolerable 6 |
| | Rare | Trivial 1 | Trivial 2 | Trivial 3 |

Likelihood

Rare, will probably never happen/recur
Unlikely, do not expect it to happen, but is possible
Possible, might happen
Likely, will probably happen
Almost Certain, will undoubtedly happen

Severity

Negligible Minor
 Moderate Major
 Critical

Risk control strategies

Intolerable – stop activity, take immediate action to reduce the risk

Substantial - Take action within an agreed period

Tolerable – monitor the situation

Trivial – No action required

Declaration - If the above control measures are implemented the risks posed by the task / process / environment assessed will be controlled to as low as is reasonably practicable.

Persons involved in assessment

Darren Crockford / Gary Chapman

Signature of Lead Assessor
