

## Focus of The Week: The College Environment

Below are some creative ideas that we can all get involved with to help look after the College environment....

- \* Pick an outside space to transform – this could be part of your social action project e.g. plant some bulbs or trees, weed a flowerbed, dig out the pond if your tutor is feeling adventurous!
- \* Build some recycling containers
- \* Run a competition to increase recycling
- \* Update a notice board with information about a subject that is important to your tutor group and would help other students
- \* Produce some artwork that can be displayed
- \* Update your tutor board with information relevant to your year group
- \* Do a litter pick
- \* Come up with a list of ideas to improve the college environment and give them to your tutor group to take to house council.
- \* Design a poster for a reducing litter campaign

This is your school – let's work together to keep it a welcoming, safe, and inspirational learning environment.
