

Subject Area: Geography – KS5

‘Geography offers our community the cultural experience to understand the complex links between diverse natural and human environments on a global scale. This enables students to become active decision makers and guardians of their changing world both today and in the future’

Curriculum Overviews	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 12	Coasts Processes Landscapes Regenerating places Local place study	Coasts Sea level change Management Regenerating places Need, management and evaluation of regeneration projects	Globalisation Causes Tectonic Hazards Distribution Causes	Globalisation Impacts Tectonic Hazards Link to disasters Management Fieldwork	Revision	Water Hydrological cycle Deficits and surpluses Water insecurity Superpowers Change over time Impacts Contested superpowers
Year 13	The Water Cycle and Water Insecurity Hydrological cycle Deficits and surpluses Health, Human Rights and Intervention Human development Human rights Causes and impacts of geopolitical interventions	The Water Cycle and Water Insecurity Water insecurity Superpowers Change over time Fieldwork Health, Human Rights and Intervention Human development Human rights Causes and impacts of geopolitical interventions	Superpowers Impacts Contested superpowers The Carbon Cycle and Energy Security Carbon cycle	The Carbon Cycle and Energy Security Increasing demand for energy Links to global climate cycle Preparation for Paper 3 (when material released by exam board)	Revision	Revision

Texts, Exam Boards and Useful Websites:**Key Stage 5 (Year 12 – 13)**
